SUMMARY

AI Engineer focused on building AI-powered applications using Python, Django/FastAPI, and LangChain, with hackathon-winning project experience, hands-on work in LLM workflows, OCR pipelines, backend integration, and a detail-oriented approach to building reliable systems while staying engaged with AI and scientific developments.

EDUCATION

BASc Data Sciences & Artificial Intelligence

Oct 2022 - June 2026

Al Ahliyya Amman University - Amman, Jordan - **GPA 3.67**

EXPERIENCE

AI Developer Intern

Mar 2026 - June 2026

Optimum Partners Global - Jordan.

- **Led a team** of 14 AI interns by organizing project flow, assigning tasks, and coordinating execution across the team.

PROJECTS

• Arabic OCR System (Graduation Project)

- Built a document digitization system that converts Arabic paper documents into structured digital information. **Improved VLM** output accuracy by adding contextual guidance and organizing document elements before extraction.
- **SiraStudio** - AI-powered CV builder with a custom **ATS template** and integrated **AI agent** for fast live CV generation and editing. Improved performance and **reduced token usage by 80%** through cost-efficient tool-calling optimization.
- **FinAi** - AI-powered financial services platform for Jordanian banks with **Agent assistance**, OTP authentication, role-based access, chat memory, and **caching database** to reduce external API usage.
- **VR Interview System** - AI interview simulation platform with **turn-based interviews** and **voice analysis**. Selected as the **first project** to be presented at my university's **Job Fair Day**. Worked as a **backend team member**.
- **Hfawa** - A charity and hospitality event scheduling system for managing Umrah and Hajj visitor events, developed for my **First customer**.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, HTML, CSS

Backend & Web: Django, FastAPI, HTMX, Tailwind CSS, Streamlit, REST APIs

AI & Data: PyTorch, TensorFlow, Scikit-learn, Transformers, LangChain, LangGraph, Matplotlib

Tools & DevOps: Docker, Git, GitHub, Linux, Nginx, VPS Hosting, Amazon Web Services, Huawei Cloud

Concepts & knowledge: RAG, API development, Agent orchestration, Context Engineering, Cloud computing

CERTIFICATIONS

IBM AI Engineering Professional Certificate

Aug 2025

IBM

Meta Back-End Developer Certificate

Feb 2025

Meta

AI Infrastructure and Operations Fundamentals

Jan 2026

NVIDIA

Retrieval-Augmented Generation with Embeddings & Vector Databases

Jan 2026

Scrimba

Google Prompting Essentials

Jan 2025

Google

AWARDS & PARTICIPATIONS

3rd Place - Fintech Rally: University Edition	July 2025
JOPAC and JOIN Fincubator - Technical Implementation track	
Local Programming Contest	Nov 2023
Al Ahliyya Amman University	
Huawei ICT Competition Participant	Nov 2025
Huawei	
Modelathon Competition Participant	May 2025
IEEE Jordan Section	

VOLUNTEERING

Event Coordinator	Mar 2025 – June 2026
IEEE Computer Society Chapter - AAU	
Course Manager	Oct 2024 - June 2025
Data Science and AI Club - AAU	

LANGUAGES

Arabic: Native	
English: B2 Upper Intermediate (EFSET 4 Skills Test)
